The Darley Dolphin Floating Pump/HEF13BS Highest Volume Floating Pump On The Market

The Darley Dolphin Floating Pump gives you the flexibility of high volume and moderate pressure never before available in a floating pump. Take advantage of streams, ponds, swimming pools, and hard-to-reach sources of water. This lightweight floating pump (only 120 lbs./54 kg) is easily carried by two people through even the roughest terrain. Its clean compact design, 20"H x 30"W x 32 1/2"L (508mm x 762mm x 826mm) allows you to store it in most standard-size compartments.

SPECIFICATIONS

ENGINE: 13 HP I/C Briggs & Stratton, single-cylinder, 4-cycle, air cooled, recoil rope start. Fuel is regular unleaded gas with no mixing of oil and gas required. 2-quart fuel tank.

FLOAT: High density polyethylene filled with closed-cell polyurethane foam. Four built-in carrying handles.

PUMP: Self-Priming centrifugal pump. Aluminum pump casing and suction head with screen. Bronze pump impeller. Single 2 1/2" NST discharge and 4" Inlet.. Self-adjusting mechanical seal.
